

## **Sydney Chinese Lions Visiting Elderly Australian Chinese Homes**

On 17 September, President Anthony Cheung together with members of the Lions Club of Sydney Chinese Inc. visited the Elderly Australian Chinese Homes (EACH) at Croydon. During their visit, they held a heart-warming and enjoyable party with the elderly residents there.

The party began with Ms Yvonne Chin, CEO of EACH delivering a brief and sincere welcome address. It then followed by entertainment numbers of Chinese songs performed by President Anthony, Vice President Mei Cheng, Secretary Rita Kwan and other members.

There were also fun games which were all well received by all the elderly folks as well as other participants of the party.

The party came to a climax when the Lions handed out gift packs to the elderly folks while mingling and chatting with them. Not only did the elderly have a great time, the Lions also patted each other on the back, knowing that they've done a great job.

As President Anthony puts it, "Visiting and entertaining elderly folks is a meaningful activity. Through this, not only the elderly recognizes that we care about them but also at the same time, we derive immense pleasure out of it. This is so worthwhile that we'll endeavour to organize more of this sort of functions in the future."
